The Long Ledger · Chapter 6: Today (2018–)

Good Samaritan Hospital has closed. Gem City Market has opened. The family is still here, and the trap is still here, wearing new clothes.

Setup

Set up the Full Block (Co-op). The Owner is The Ledger Keeper: slide its card face-down under the board instead of shuffling the Owners. Ignore the scenario deck. If the family played the last chapter: put on the district stickers (each Rebuilt takes 1 Squeeze off a district this chapter starts squeezed, or else adds Clarity 1; each Scarred adds Squeeze 1), and if that chapter was lost the community rallies: everyone +1 Trust. Then apply last chapter's Family Decision (The Plants Close): Sell: In Chapter 6, everyone starts with +2 Trust, but Housing loses a Rebuilt sticker. Hold on: Housing keeps everything, and starts Chapter 6 with 1 more Squeeze.

The twist

Every History card the family unlocked is in play, and the Elder may teach History twice.

The family's History

Shuffle only the History cards the family unlocked (the lineage sheet's ticks) into the History deck; the Elder may teach History twice this chapter.

The Owner's face

The Ledger Keeper: one hand behind every era. Its hidden hand changes face each round: the store's book (collections), the labor agent (Read −1), the appraiser (+1 Squeeze on your strongest work), the algorithm (an extra strike). It wore The Planter's Ledger, the Labor Agent, the Appraiser, the Council and the Algorithm.

Ending the chapter

Win or lose, fill in the Family Ledger on the lineage sheet: win +2 and +1 per awake district; lose −2 and −1 per captured district; each Fall −1 and each Reach +1. Awake districts heal a Scar or take a Rebuilt sticker; captured districts take a Scarred sticker (at most 2 per district). A chapter won with no Falls redeems one Fall from an earlier chapter (+2).

Balance-tested with computer players at 1–5 players (python3 balance_test.py, CAMPAIGNS and SOLO). Solo: 5 actions, Teach a neighbor, trace 2 threads (RULES.md, Solo).
