The Long Ledger · Chapter 2: Up North (1910s–1940s)

The family steps off the train on Dayton's West Side with a labor agent's ticket and a room they haven't seen. The plants are hiring. The fine print came north too.

Setup

Set up the Full Block (Co-op). Swap the Labor and Housing deal decks for this envelope's era decks (the cards with “Up North” backs; print the backs on the reverse so era deals never mix into the base deck). Health and Education start off the board: they open in round 3. The Owner is The Labor Agent (it plays as The Lobbyist): slide its card face-down under the board instead of shuffling the Owners. Ignore the scenario deck. If the family played the last chapter: put on the district stickers (each Rebuilt takes 1 Squeeze off a district this chapter starts squeezed, or else adds Clarity 1; each Scarred adds Squeeze 1), and if that chapter was lost the community rallies: everyone +1 Trust. Then apply last chapter's Family Decision (Freedom's Ledger): Go north now: Chapter 2 starts with all five districts open from round 1. Stay and save: The family's Ledger +1, but Chapter 2 starts with Lending at Squeeze 1 (the debt follows you).

The twist

Only Lending, Housing and Labor are open at first. Health and Education open in round 3, once the family is settled.

The Owner's face

The Labor Agent: every round it leans on your strongest unfinished district (+1 Squeeze); on reveal, knocks one woken district back to Clarity 1.

Ending the chapter

Win or lose, fill in the Family Ledger on the lineage sheet: win +2 and +1 per awake district; lose −2 and −1 per captured district; each Fall −1 and each Reach +1. Awake districts heal a Scar or take a Rebuilt sticker; captured districts take a Scarred sticker (at most 2 per district). A chapter won with no Falls redeems one Fall from an earlier chapter (+2). History unlocked: “Dunbar, the Wrights and the Dayton Tattler”. With a win, also “Maggie L. Walker's Penny Savings Bank”.

Family Decision

The family has a little saved. Put it into the church, the house, or a child's schooling? The church: In Chapter 3, gathering at the church takes off 3 Shady instead of 2. The house: In Chapter 3, Housing starts with 1 less Squeeze: a house the family owns outright. A child's schooling: In Chapter 3, the Student starts with Read 1 everywhere.

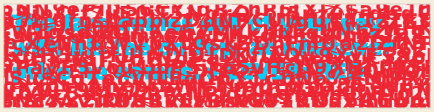

Balance-tested with computer players at 1–5 players (python3 balance_test.py, CAMPAIGNS and SOLO). Solo: 5 actions, Teach a neighbor, trace 2 threads (RULES.md, Solo).
